

EDUCATION	University of Pennsylvania , Philadelphia, PA Masters: Computer and Information Science GPA: 3.3/4	June 2021
	BITS Pilani , India. Bachelor of Technology (with Honors) in Computer Science GPA: 8.84/10	May 2019
WORK EXPERIENCE	Moderna Software Development Engineer Fullstack mRNA Squad Angular, RxJS, Typescript, NestJS Developed a sequence toxin detection system: implemented a robust API to screen incoming sequence orders against an internal BLAST db, flagging potential sequences and orders. It enhances safety compliance and prevents accidental distribution of harmful materials.	Aug'23-Now
	Zoom Video Communications Software Engineer Fullstack (Team: ZoomIQ) AI-ML Org Vue3, Python, JavaScript, CSS, HTML - Owner of the Conversation and Clip sharing functionality that lets users create, access-restrict and share recordings via email. Ideated, developed and launched these enterprise features on a short timeline that led to the acquisition of 3 enterprise customers and a \$3M bump in revenue. - Led development of the "Teams" feature to allow users to visualize and manage customer team(s) that has been adopted by over 260K DAUs. - Translated business needs into detailed product requirements and developed end to end PoCs for the "Agenda covered feature" that used a real time web socket connection, provided low latency and was beta-launched and accepted by top 10 ZoomIQ customers. - Revamped the deals page in the ZoomIQ application by adding visualization charts that increased user engagement on the page by 7%. - Hired as the first software engineer in the ZoomIQ US team. Collaborated with PM, QA engineers in setting up of project structure and drove key architectural decisions that increased ZoomIQ test efficiency by over 16%. - Took an active part in creating and developing the onboarding program for the next batch of new hires.	Aug'21-Jun'23
	Pickle Poll Software Development Engineer Fullstack ReactJS, MySQL, NodeJS, Bootstrap, Webpack Migrated the iOS only app to the web using Webpack and Babel Jest. Led development of the poll voting and results feature including the app download prompt across iOS and Web, leading to 40% growth in new users.	June'21-Aug'21
	Presso Software Engineering Intern - Fullstack ReactJS, CSS, HTML, MySQL, NodeJS, Bootstrap, AWS Elastic Beanstalk, AWS S3 Bucket - Collaborated with team members to draft a new Schema for the Database via ER Diagram(s) with additional attributes focused on tracking machine performance. - Migrated database from Firebase to MySQL with an additional S3 bucket to store the images captured during a machine cycle. - Built the webserver API using NodeJS and migrated the existing Android code to use it. Designed and hosted an analytics dashboard on S3 bucket, built using FusionChartsJs to monitor the machine status, faults and predict irregularities.	May '20-Aug'20
ACADEMIC PROJECTS	Increasing Lexical Diversity in Plug & Play Language Models (Faculty: Dr. Chris Calison Burch) Python, PyTorch, HuggingFace, Simple transformers - Accepted as an extended abstract in the Workshop on Neural Generation and Translation at ACL 2020. - Demonstrated a bias to generate specific topic words for models in the Plug and Play Language Model framework such as GPT-2. Proposed with the necessary results, 3 methods namely Weighted Log Likelihood, KL Divergence Loss and Adaptive Word Elimination to increase the generation of the less frequent words.	Jan'20-May'20
	Pentagram Capstone Project - Programming for the Web ReactJS, Bootstrap, SQL, NodeJS, Heroku, Okta, AWS S3 Bucket, Travis - Built an Instagram like photo sharing social networking app from the ground up. It had all the functionalities such as like upload, like, unlike and comment with account creation/deletion. - Wrote the entire Frontend, Backend, API's and documentation. The website was hosted on Heroku with the use of AWS S3 buckets for media storage. ReactJS as the base of frontend with Okta to store user credentials and Bootstrap for styling. - Automated testing using Selenium and robust feature testing using CI/CD pipeline via Travis.	Aug'19-Dec'19
